Our exhibitors present their most innovative products and reveal the trends of today and tomorrow:

- An increase in the range of **green and innovative** packaging and disposable tableware
- An "**ultra gourmet**" **snacking offer**: consumers are paying attention to their health but still want to do themselves good
- A very dynamic beverage sector, a real business lever for professionals with a multitude of flavours and colours and a clear underlying trend: **natural and fair-trade compositions**
- Innovations inspired by **world cuisine**: Italian, Mexican, Oriental, Asian inspirations, etc.
- Committed brands with **the democratisation of organic products**, careful sourcing, nitrite-free and conservative-free products, and quality ingredients that adapt to **multiple diets** (veggie/vegan/gluten-free, etc.)
